Meteorological Office M.O.7c,
London Road,
Bracknell,
Berkshire.

Our Ref: BF/117/M.O.19

May, 1963.

Dear Sir,

Climatic Normals for Crop Weather Stations

Recently a second attempt has been made to collect together monthly averages of mean air temperature, sunshine and rainfall, for crop weather stations with sufficiently long records.

The results of this work are sent for your information. They are divided into two sections, the first containing officially accepted averages and the second containing provisional averages.

These averages replace those issued in 1956 and are for your private use and must not be published without further communication with this Office.

Yours faithfully,

(G.W. HURST)

G.02805/5/63/PDE/100
